- If you receive financial aid, a JAN Plan course would count in your credits for spring semester. For example, you may take a course in the JAN Plan and then begin 9 credits (or 3 courses) in the regular spring semester that begins on January 22<sup>nd</sup>. This would be full time enrollment.
- You may also consider taking a JAN Plan course along with 12 credits in the regular spring semester. In this case, full time aid is based on 12 credits. Taking more credits will not provide an increase in your aid.
