CompTIA Mobility+ Preparation  
(CCT-M90-HYA)

Course Description:

This professional development course is designed to prepare students for the CompTIA Mobility+ Certification Exam. The CompTIA Mobility+ Certification Exam is an internationally recognized validation of skills and knowledge required of IT practitioners working in mobile computing environments along with aspects of over-the-air technologies.

The course will cover radio frequency concepts and applications; radio frequency test and measure; mobile device management; troubleshooting; security; and network infrastructure. The course will also train IT professionals to deploy, integrate, support and manage a mobile environment, while ensuring proper security measures are maintained for devices and platforms to mitigate risks and threats.

Professional IT Certification Exam:

The CompTIA Mobility+ Certification Exam will certify that the successful candidate has the knowledge and skills required to understand and research capabilities of mobile devices and over-the-air technologies.

Prerequisite:

Suggested Prerequisite CompTIA Network+ Certification, or equivalent experience. The course relies on a fundamental understanding of Network technologies.
