

TRADE & TECHNICAL OCCUPATIONS

Are you in an apprentice program?
Get a college degree and
become a journeyman.

“I learned about the Technical Trades degree at KVCC and thought that was a great opportunity. Since I am doing this, now I can be a journeyman and a college graduate too. In a few years I will be well-positioned to be a supervisor by experience and by my credentials.”

The Trade and Technical Occupations program is a highly individualized program of study that takes into account the nature of the apprenticeship program someone is in. As many as 24 credit hours of academic work can be applied towards this degree from an apprenticeship program experience.

Students build a small portfolio that documents their apprenticeship. Students then take trades and general education classes to complete their degree.

What Trade and Technical Occupations graduates do:

Continue work in the trades

Students will learn:

Writing	Ethics	Computer applications
Analysis	Communication	Mathematics
Trade skills	Business skills	Professional skills

Trade and Technical Occupations graduates work in:

Trade industries	Small companies
Manufacturing plants	Family businesses
Construction companies	Governmental agencies

Program entry requirements:
