Metal Cutting Band Saw

Addendum 1
October 9, 2019

Question 1 – Email received on October 4, 2019:

Do you have a make and model number of the saw's specs you have listed below?

Reply 1:

We do not have a specific saw in mind, we are interested in a metal cutting band saw that meets the identified specifications.

Question 2 – Email received on October 5, 2019:

Is there a certain brand you are looking for?

Reply 2:

We do not have a specific saw in mind, we are interested in a metal cutting band saw that meets the identified specifications.

Question 3 – Email received on October 8, 2019:

The only specification question that I was unable to answer was your need for "Replaceable Steel Wear Plates on Bed". If you could elaborate more on what you need I would be glad to give more explanation on our saw and if this feature is present.

Reply 3:

These are plates that the material rests on while sawing the material. It is not mandatory if they are not replaceable.
