When designing the request for proposal the Rhino Cart Mobile Fixturing Station was used as a guide for our specifications.

As per our procurement standards- Any specific reference to manufacturer(s) and/or catalog/model/stock numbers provided is to establish the design, type of construction, quality, functional capability and performance level desired. The bidder may offer an alternate product believed to be an equal. Any alternate product(s) bid must be clearly identified by manufacturer and catalog, model or stock number. Adequate detailed specifications of the product offered must be included with your bid to establish equivalency and to ensure that the product being bid meets all specifications.
