(MAT 026 cannot be used as a general education elective.)</p> |

Students should be aware that some courses listed are not offered in every academic semester, and that courses may be discontinued as program requirements change.

★ These courses require a prerequisite course before they can be taken. Please consult the KVCC Catalog or contact Academic Affairs at 453-5822 with questions about the order in which courses need to be taken.

\*\*Students in programs that require both a Fine Arts elective and a Humanities elective should be aware that a single course cannot be used to fulfill both requirements. Two courses must be taken.

If you have any questions about a particular class and which elective category it fulfills, please contact the Academic Affairs Office at 453-5822.
