

## **Job openings at the US Geological Survey**

**The USGS New England Water Science Center is hiring Hydrologic Technicians**

Hartford, CT Augusta, ME Northborough, MA Pembroke, NH

### **Recent Graduate, GS-1316-Hydrologic Technician 3/4/5**

As a hydrologic technician with the USGS New England Water Science Center, duties will include assisting with field and office work in support of our surface water and groundwater monitoring programs. Specific duties include performing routine measurements of stream/lake stage, discharge and groundwater levels, and computing and checking surface water and groundwater records. Additionally, the position will support installation, maintenance, servicing and troubleshooting efforts for our gaging stations.

### **Highlighted Eligibility Requirements:**

- To be eligible for a Pathways Recent Graduate position:
  - o You must be a recent graduate, within the previous 2 years, who has completed an associates, bachelors, masters, professional, doctorate, vocational or technical degree or certificate from a qualifying educational institution
  - o Or, you must be currently enrolled in a qualifying degree program AND expect to complete your requirements no later than 12/31/2021
- Applicants must be U.S Citizens, have a valid driver's license and safe driving record, and be suitable for Federal employment, as determined by a background investigation
- Additional requirements are listed on the Job Announcement through USAJOBS

We encourage applications from members of traditionally under-represented populations in science, technology, engineering, and mathematics (STEM) professions, such as women and minority racial or ethnic groups to apply.

### **Details on Applying:**

The listing will be available December 15, 2021 to December 21, 2021 at the following link:
