

MEDICAL ASSISTING

CERTIFICATE PROGRAMS AND ASSOCIATE IN APPLIED SCIENCE DEGREE

Medical Assistants perform administrative and clinical tasks that keep provider practices running smoothly. The education for a Medical Assistant is very diverse; Medical Assistants are trained professionals that are able to perform everything from direct patient care to the management of the ever- changing nature of healthcare administration.

The Medical Assisting Certificate Program at Kennebec Valley Community College is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of Medical Assisting Education Review Board (MAERB). Commission on Accreditation of Allied Health Education Programs, 25400 US Highway 19 North, Suite 158, Clearwater, FL 33756
Phone: 727-210-2350 www.caahep.org

“In my job I get to be on the edge of almost everything happening in healthcare. The possibilities are endless for me with a degree in Medical Assisting from KVCC.”

The front line of medical care

What Medical Assisting graduates do:

- Perform EKGs
- Billing, coding, and insurance claims
- Collect and process lab specimens
- Maintain medical records
- Assist in minor surgeries
- Obtain vital signs
- Administer injections
- Referrals

Career Opportunities:

- Provider Practices
- Express Care
- Specialty Practices such as: Pediatrics, Family Practice, Women's Health Centers, Cardiology, Obstetrics and Gynecology, Geriatrics, Hospitals, and Laboratories

MAS115	Medical Assisting Clinical Theory	3
MAS117	Medical Assisting Clinical Lab	1

Second Semester

MAS114	Medical Office Law and Ethics	3
MAS211	Insurance Coding for Medical Office . . .	3
MAS215	Advanced Medical Assisting Clinical Theory	3
MAS217	Advanced Medical Assisting Clinical Lab	2
MAS220	Pathophysiology/Pharmacology for the Medical Office	3

Summer Semester

MAS234	Clinical/Administrative Office Practicum	5
--------	--	---

Total Credits **36**

Associate in Applied Science Degree

Certificate in addition to courses noted below.

First Semester

BIO214	Anatomy and Physiology II	4
COM105	Interpersonal Communication	3
ENG101	College Composition	3
PSY215	Developmental Psychology (GE)	3

Second Semester

ENG219	Business and Professional Writing	3
MAT111	Quantitative Reasoning	3
PHI110	Intro to Contemp Ethics (H)	3
PSY101	Introduction to Psychology	3

Total Credits **61**

CRITERIA FOR GRADUATION

Students must complete 36 credits in the Medical Assisting Certificate program, 61 credits in the Associate in Applied Science Degree program and achieve a minimum grade of “C” in all courses. Students must attain a final GPA of 2.0 or higher. GE,H Suggested Electives. Please contact your advisor for more information.

MEDICAL ASSISTING

Certificates, Associate in Applied Science Degree

DESCRIPTION

The Medical Assisting program includes clinical and administrative experiences that are competency-based. During the final semester, students will work clinically alongside a provider in his/her practice as well as perform administrative tasks. A Medical Assistant will have direct patient care, provide patient education, obtain, and test biological specimens, perform ECG's and assist the provider in minor office surgeries. Administrative management skills include the understanding of legal and ethical issues, confidentiality, billing and coding, scheduling appointments, referrals, and insurance claims processing.

The Medical Office Specialist program is designed to prepare students in the most advanced medical office technology. This two-semester certificate is a theoretical, competency and scenario-based program that will prepare students for entry-level medical

positions within the healthcare field. Medical Office Specialists are highly trained within the electronic health record, documentation and the complex tasks related to front office medical practices. Specific tasks may include scheduling and registering patients, verbal and written communication, insurance and billing, with an emphasis on excellent customer service. Professionalism and teamwork are incorporated as a vital component of a healthcare team as well as legal and ethical implications of a medical practice.

PROGRAM MISSION

The mission of the Medical Assisting Program is to prepare students for employment in provider practices, specialty practices, express cares, clinics, hospitals and laboratories. The curriculum provides students with current knowledge in both clinical and administrative procedures. The program is committed to providing

students with a foundation of knowledge, skills, and behaviors that will carry them into the work force and lifelong learning.

EDUCATIONAL OUTCOMES

Program Goals and Student Learning Outcomes

To prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

Upon completion of the program all students will:

1. Be prepared and eligible for the American Association of Medical Assistants certification examination.
 - Student Learning Outcome: Students will achieve passing grade on three mock certification exams which will be equal or greater than the national average for the first-time takers.
2. Demonstrate critical thinking and problem-solving skills within the boundaries of professional practice.
 - Student Learning Outcome: Students will gather factual information and apply it to a given problem.
 - Student Learning Outcome: Students will analyze logical connections among the facts relevant to a given situation.
3. Demonstrate effective communication with patients, families, and other health care professionals.
 - Student Learning Outcome: Students will demonstrate oral communication within a medical setting.
 - Student Learning Outcome: Students will demonstrate written communication skills within a medical setting.
4. Empathize and employ ethical principles by showing respect for diversity of culture, age, and gender.
 - Student Learning Outcome: Students will demonstrate empathy and respect for all patients.
 - Student Learning Outcome: Students will demonstrate ethical decision making within a medical setting.
5. Demonstrate technical proficiency on all skills necessary to fill the role as a medical assistant.

- Student Learning Outcome: Students will demonstrate proficiency on all skills as a medical assistant.

COLLEGE ADMISSION

General admission guidelines can be found on [page 34](#) in the catalog.

PROGRAM INFORMATION:

Criminal Background Checks

Applicants to certain programs need to note that a criminal background check will likely be required while enrolled in the program or as a condition of employment in the field. Certain internship and/or practicum sites, such as health care facilities, may limit or deny clinical privileges to those students who have a prior or current criminal record.

- Should a clinical facility refuse to permit a student to complete a clinical rotation based upon the student's criminal background check, the student may not be able to complete the program. In the event a student is denied placement at a clinical site, the College will likely be required to enter an academic dismissal from the program.
- Additionally, certain licensing boards may refuse to issue a license to practice based upon prior or current criminal offense(s). To learn more about whether the program or profession in which you are interested has such requirements or limitations, contact the appropriate Department Chair.

Finger Printing

Finger printing may be required by certain clinical or fieldwork placements. Students are responsible for the cost associated with securing fingerprints.

Infectious Diseases

Applicants who consider a career in Nursing or the Allied Health professions should be aware that during the course of their education and subsequent employment, they will be working in situations where exposure to infectious diseases is probable. This is an occupational risk for all health care workers. Persons should not become health care workers unless they recognize and accept this risk. Proper education and strict adherence to well-established infection control guidelines, however, can reduce the risk to a minimum. Thorough education in infection control procedures is an integral part of each health care program.

Exposure to Latex

Additionally, applicants should be aware that exposure to natural rubber latex (NRL) is likely. Individuals exposed to NRL products may develop allergic reactions such as skin rashes; hives; nasal, eyes, or sinus symptoms; and, rarely, shock.

Costs

Costs associated with required immunizations, criminal background checks, finger printing (when applicable) and admission testing are the responsibility of the applicant.

Drug Testing

Drug testing may be a requirement of clinical/fieldwork education sites. Students will be responsible for the cost of such testing if required by the site.
