TRADE & TECHNICAL OCCUPATIONS

ASSOCIATE IN APPLIED SCIENCE DEGREE PROGRAM

The Trade and Technical Occupations program is a highly individualized program of study that takes into account the nature of the apprenticeship program someone is in. As many as 24 credit hours of academic work can be applied towards this degree from an apprenticeship program experience.

Students build a small portfolio that documents their apprenticeship. Students then take trades and general education classes to complete their degree.

"I learned about the Technical Trades degree at KVCC and thought that was a great opportunity. Since I am doing this, now I can be a journeyman and a college graduate too. In a few years I will be well-positioned to be a supervisor by experience and by my credentials."

Are you in an apprentice program? Get a college degree and become a journeyman

What Trade and Technical Occupations graduates do:

- Continue work in the trades

Career Opportunities:

- Trade industries
- Small companies
- Manufacturing plants
- Family businesses
- Construction companies
- Governmental agencies

TRADE & TECHNICAL OCCUPATIONS

Associate In Applied Science Degree

COLLEGE CREDITS FOR APPRENTICESHIP TRAINING

Kennebec Valley Community College offers an Associate in Applied Science degree for people in Trade and Technical Occupations. This program is designed to recognize the proficiency of people who are enrolled in, or have completed, a registered apprenticeship program (i.e. journeyperson status).

Women and men who have completed or are currently enrolled in a registered apprenticeship program or a formal program approved by the College may apply and simultaneously complete both their training program and degree requirements.

A registered apprenticeship program is approved by the Maine State Apprenticeship and Training Council or the U.S. Department of Labor, Bureau of Apprenticeship and Training.

COLLEGE ADMISSION

General admission guidelines can be found on page 33 in the catalog.
